

Product description

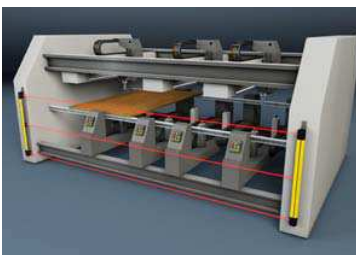

S991028 CS-SC7/FR (package 5 C) **Conformity assessment of industrial machine**

Our expert carries out a formal check of the relevant documents in accordance with Appendix VII, A of EU Machinery Directive 2006/42/EC. This forms the basis for checking and assessing conformity with these European directives. The results are compiled in a detailed report which then serves as the basis for the EC Declaration of Conformity. Package 5 C is available for all machine types which are not listed in Appendix IV of Machine Directive 2006/42/EC.

Included in the package:

- Conformity assessment of a machine within Germany in accordance with Machine Directive 2006/42/EC
- Written documentation
 - o technical report (with reference to directives and standards)
 - o binding formal assessment of the submitted documents (contents not checked*) as the basis for the EC Declaration of Conformity
- Proposals for further action, where appropriate

Example of an industrial machine which is assessed in package 5 C:

If required, package 5 C can be extended in two stages by half a day or a whole day (S991025 CS-SC4/FR).

*Note: The content of the documents can be checked on request

Subject to modifications and errors.
