1) Observe the safety regulations and installation instructions regarding power supply and wiring; for UL applications: only for use in "Class 2 " circuits acc. to NEC
2) For $U_{B}$ ambient temperature $T_{a}=23^{\circ} \mathrm{C} \pm 5^{\circ} \mathrm{C}$
3) 1=polarity reversal protection, $2=$ short-circuit protection, for all outputs

## Remarks

- Approved purpose:

The inductive switches are electronic sensors for the inductive, contactless detection of objects.
This product may only be used by qualified personnel and must only be used for the approved purpose. This sensor is not a safety sensor and is not to be used for the protection of persons.
