

**Technical data**

**General specifications**

Description	Device description (IODD—IO device description) for parameterization and diagnostics of IO-Link sensors* Note: IODDs are used by Engineering Tools to generate an interface with device parameters.
-------------	---

**Model Number**

**MLV41-54-G IODD**  
 IODD for communication with MLV41-54-G-IO-Link sensors

**Features**

- Device description (IODD)

**Accessories**

**PACTware 4.X**  
 FDT-Framework

**IODD Interpreter DTM**  
 Software for the integration of IODDs in a frame application (e. g. PACTware)
