CEDES
More than you expect!

More than you expect!

CEDES provides safety and comfort for people. Our technological know-how and global network offer our customers the most advanced sensor solutions. Innovation and quality are the hallmarks of our products and service. Our strength lies in providing leading-edge technology throughout our product range. Our goal is to provide customers with solutions that exceed their expectations.

One of our core competences is developing customer-specific solutions. Our detailed understanding and mastery of technology enable us to develop innovative and cost-effective tailor-made sensor solutions for specific applications, as well as standard products, which themselves have wide-ranging applications.

The customer is always at the heart of our process.

CEDES doors & gates sensors

CEDES offers an extensive range of high-quality yet very cost-effective sensor solutions for the automatic door and gate market. Using 30 years experience in developing innovative sensor technology, CEDES has built up a comprehensive product portfolio of sensors and light curtains.

From safeguarding small sectional doors, such as those in private garages, right up to huge aircraft hangar entrances, CEDES has the right product at the right price.

The TÜV-certified GridScan/Mini offers outstanding safeguarding for all types of industrial doors and gates. The TLS 500/600 sensors reliably detect both people and objects while the TOF/Spot can measure distance with incredible accuracy, thanks to its Time-of-Flight technology.

Whatever the application, we have the solution.
