Concealed duct

The Next Generation of Ductless Split Systems

All of the advantages of ductless systems and Friedrich quality

ENERGY STAR® models

Friedrich offers a wide variety of ENERGY STAR® models in both single and multizone configurations with SEERS up to 25.0 and EERs up to 14.0.

Inverter variable capacity advantages

Inverter technology allows each system to adjust capacity and cooling output to provide only the amount of cooling needed at a given time. For example, an 18000 Btu system will operate even more efficiently at 15500 Btu or less if that's all that's needed, reducing energy consumption and improving comfort.

Optimized airflow

The indoor unit's 4-way air swing quickly disperses cool air to all four corners of the room to provide comfort throughout the room within a few minutes. The 'Surge Air' feature moves air at an even higher speed for rapid cooling.

Zero duct loss

The DOE reports that ducted systems lose an average of 25-40% in performance due to leaks, cracks or disconnections in ductwork.

No ductwork means that ductless systems do not experience duct loss, saving energy and money.

No dirty air ducts*

Now there's no need to clean dirty air ducts that can harbor dust, germs and allergens that are eventually blown into your home or office.

Zone cooling flexibility

Independently condition up to (8) separate zones using only a single outdoor unit. Achieve the ultimate in comfort and energy control by cooling or heating only the zones that are in use. And, because each zone is independent of the others, comfort settings can vary.

DIAMONGOLD
Advanced Corrosion Protection™

Protects the outdoor coil against deterioration and extends the life of the unit especially in harsh coastal environments.

Model MWH12Y3J

*Ductless wall-mounted and ceiling cassette models

Friedrich has over 1,000 multizone configurations utilizing wall-mounted, ceiling cassette and concealed duct models

Enjoy the flexibility to mix and match systems to fit your application.

Zone cooling and heating provides unmatched customized comfort and energy savings

Occupants have the ability to set the temperature of each zone to their preferred comfort level*, or even turn off units in unoccupied rooms, without affecting other zones.

That's the beauty and efficiency of a Friedrich multizone system.

*Multizone units cannot heat and cool simultaneously.

The Advantages of Friedrich's Precision Inverter System

Single or multizone, Friedrich ductless is superior to conventional systems

Precision Inverter technology varies the compressor, the outdoor and the indoor fan speeds, eliminating constant compressor start-ups/shut-downs that traditional systems require to maintain the set temperature.

This is especially beneficial in multizone systems where room temperature set points vary and some indoor units may be turned off in unoccupied rooms.

Each system can adjust capacity and cooling output to provide only the amount of cooling needed at a given time. The result is optimal comfort with low energy costs.

TRADITIONAL SYSTEM	INVERTER SYSTEM
At initial start up, a fixed capacity system slowly reaches the set temperature.	At initial start up, utilizes variable capacity to quickly reach the set temperature.
Complete shutdown once set temperature is achieved.	Reduces capacity as set temperature is achieved.
Temperature within the space rises until 2nd system start up.	Variable capacity maintains set temperature keeping space comfortable with reduced energy consumption.
System works at full capacity to again reach set temperature.	
System cycles on and off continually to maintain the set temperature.	

The twin-rotary compressor and inverter drive provide superior performance for perfect comfort and optimized energy efficiency.

Friedrich J Series ductless utilizes an inverter drive coupled with variable speed, twin rotary compressors for optimal performance and increased energy efficiency.

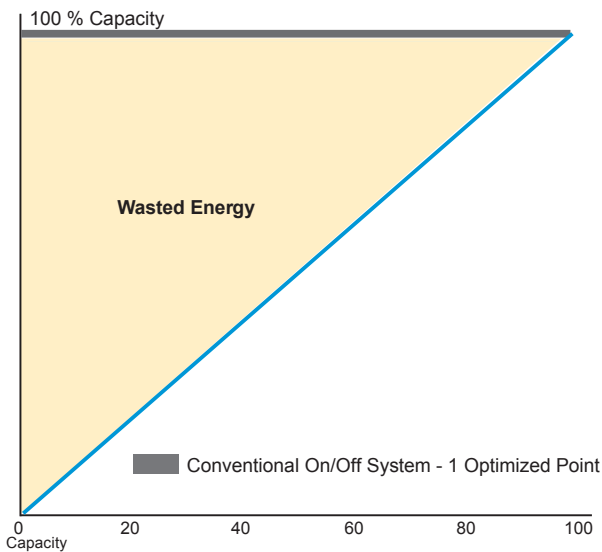

FEATURE	ADVANTAGE	BENEFIT
Inverter Drive	Accelerated cooling and heating performance	Temperature set-point is reached faster
Variable Speed Compressor	Smooth, modulated frequency for temperature maintenance	Comfortable indoor climate maintained consistently. Load matching comfort
Inverter Ramping Start-up	Low rotation speed at start-up keeping power current minimal	Eliminates power spikes that can affect appliances and cause energy spikes
Inverter Long, Slow Run	No compressor start/stop like conventional systems	Energy used more effectively and system can last longer
Twin-Rotary Compressor	BLDC Motor, Light weight, compact design, 30~120 Hz	Highly efficient, low noise, lowest vibration

No other system matches the efficiency and performance of Friedrich's Precision Inverter

CONVENTIONAL SYSTEMS

Run at a single capacity, turning on and off to reach the desired set point. This means they run at full speed each time, resulting in high energy consumption.

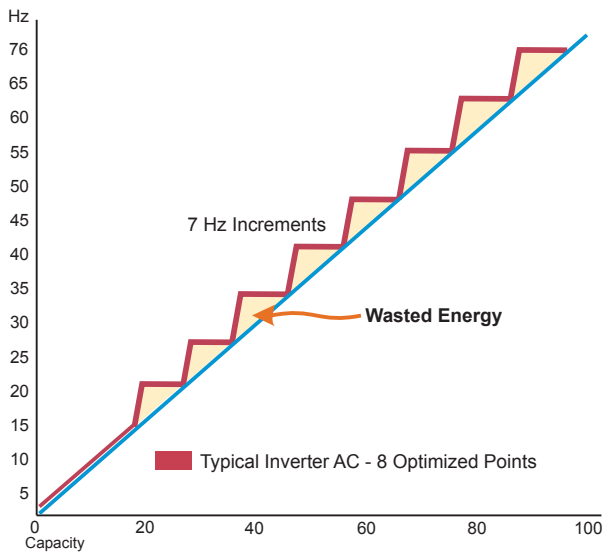

TWO-STAGE AIR CONDITIONERS

Won't significantly reduce your energy use. These units only run at 2 speeds, 50% and 100%, also resulting in high energy consumption.

TYPICAL INVERTER SYSTEMS

Make changes in **7 Hz increments** allowing the unit to run at variable speeds, delivering a more precise heating-cooling solution.

FRIEDRICH PRECISION INVERTER SYSTEMS

Make changes in **1 Hz increments** allowing the unit to run at variable speeds, delivering the most precise heating-cooling solution.

Attractive and high efficiency options for cooling and heating residential and light commercial spaces.

Wall-mounted models mount high on an exterior wall.

The attractive, neutral finish blends well with just about any decor.

The units can be used individually or as part of a multizone system to condition multiple spaces or a large area.

Residential Applications

- Room additions/renovations
- Homes without ductwork
- Bedrooms and family rooms
- Garage workshops
- Sunrooms
- Guest quarters

Commercial Applications

- Hotels and other lodging
- Computer rooms and server rooms
- Restaurant kitchen and prep areas
- Offices in warehouse spaces
- Storage facilities
- Buildings where security concerns prevent the use of window units
- Internal areas without exterior wall access

Features you'll find with Friedrich Ductless Systems:

Louver Position Steps (Fan/Cool/Heat)	6 / 6 / 6	6 / 6 / 6	4 / 5 / 4	4 / 5 / 4	N	N

Auto clean

Indoor blower runs to remove dust, dirt and moisture from the coil after system is shutdown.

Surge cool/heat

Allows quick cooling/heating. In this mode the unit will operate at 100% for 30 minutes to cool/heat the room rapidly.

Built-in low ambient standard

Allows wall-mounted unit's operation down to 14°F in cooling mode. Down to 5° F in concealed duct and cassette models.

Auto changeover (Single zone only)

Automatically changes over from cool to heat and heat to cool to maintain the set temperature.

Auto restart

Auto restart function allows system to resume with previous settings in the event of a power shutdown. (Power supply must be restored).

Dry mode

Reduces the humidity when cooling needs are low.

4-way auto swing

Louvers will automatically move up/down and left / right to maintain a uniform room temperature.

DiamonGold Advanced Corrosion Protection™

Protects the outdoor coil against deterioration and extends the life of the unit especially in harsh coastal environments.

The indoor cross-flow fan and a low vibration compressor provide ultra quiet operation indoors and outdoors.

Ultra quiet cross-flow fan

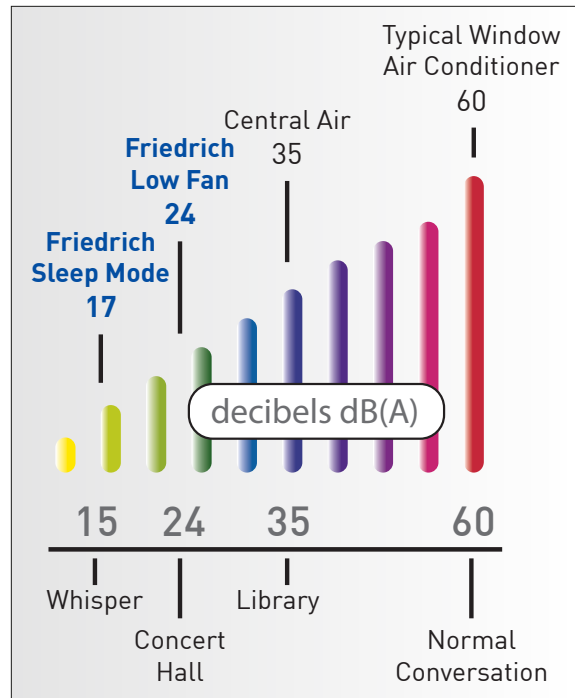

An electronically controlled cross-flow fan creates an ultra quiet, yet powerful air flow into the room.

Low vibration, twin-rotary compressor

Friedrich's twin-rotary compressor has a unique design that reduces vibration for lower sound levels outdoors.

BLDC fan motor

Brushless, digitally commutated motor with accurate speed control that makes the electrical and mechanical operation smoother, more reliable and more efficient.

Powerful airflow for faster heating and cooling.

Optimum air flow

Air is directed downward in heating mode and angled upward during cooling mode so the room feels more comfortable, faster.

Large fans

Powerful fans move the air across the room- up to 39 feet away. That means faster cooling and heating and you feel comfortable sooner no matter where you are in the room.

The Next Generation of Ductless Split Systems

Convenient installation features that will get your ductless running in no time.

Model MWH12Y3J indoor unit and hanging bracket shown. Bracket appearance will vary by model.

UNIQUE MOUNTING BRACKET

16" On-Center

The hanging bracket comes with a set of holes that are placed 16" apart from each other to help you attach the bracket securely to "16 on center" wall studs.

Level-Line Ledges

Incorporated "Level-Line Ledges" ensure a straight wall mount and frees both hands for an easy single-person installation.

Tape Measure Assist

The integrated "blade grip" securely keeps measuring tape in place. The "blade grip" gives you a helping hand when installing the bracket to the wall.

Wall Stand-off Bracket

The clip keeps sufficient space between the unit and the wall creating more room for installation.

Spacious Tubing Area

Ample space was created to facilitate tubing installation and placement.

Low Installation Access Panel

By lowering the access panel to eye-level we have created a hassle-free access to electrical connections.

Secure Grip Screws*

"Grip Screws" firmly secure wall-mounted unit to wall bracket providing a stable setup.

* Not available on MW30Y3J and MW36Y3J.

OPTIONAL ACCESSORIES

Refrigeration Line Sets

USED WITH	Length Ft.	Liquid	Suction	Kit#
9000 and 12000 Btu indoor units	15'	1/4"	3/8"	T32150
	35'	1/4"	3/8"	T32350
18000 Btu indoor units	15'	1/4"	1/2"	T42150
	35'	1/4"	1/2"	T42350
24000, 30000 and 36000 Btu indoor units	15'	3/8"	5/8"	T53150
	35'	3/8"	5/8"	T53350

Low Ambient Wind Baffle Kit

Wind baffle allows operation down to 0 °FWB.
(Available for Wall-Mounted Single Zone)

WIND BAFFLE	USED WITH
DLAWB1	9000 - 12000 Btu wall-mounted single zone models
DLAWB2	18000 - 36000 Btu wall-mounted single zone models

Thermostat

DWC1-Wired, 7-day fully programmable wall thermostat.
(Available for all models)

Ceiling Cassette Grilles (Required accessory)

Required decorative grille for ceiling cassette models

DECORATIVE GRILLE	USED WITH
DCG1218	MC12Y3JM, MC18Y3JM - 12000 and 18000 Btu models
DCG2436	MC24Y3J, MC36Y3J- 24000 and 36000 Btu models

Friedrich's Ductless Split systems are compatible with aftermarket drain pumps and condensate sensors.

For more information visit the following sites:

Condensate Pumps

Rectorseal/Aspen Pumps: <http://airtec.rectorseal.com/pumpselector>.

Condensate Sensors

Rectorseal, Safe-T-Switch® www.rectorseal.com

Aqua guard: www.rctus.com/product

Adapter

Adapter is available through Friedrich parts distributors.

All R410A models have 1/2"-20 UNF (5/16" SAE) X 1/4" SAE thread per inch charging and vacuuming ports.

An adapter must be used for 1/4" gauges.

COOL ONLY

Single Zone WALL-MOUNTED

9000-24000 Btu. Cool only models with features for convenient operation, care-free comfort and years of dependability.

Features

- Inverter technology (variable speed compressor)
- BLDC motors
- High efficiency for low operating cost
- DiamonGold Advanced Corrosion Protection™
- Auto Clean indoor coil
- Cooling/Fan mode
- Surge cool
- Natural air flow
- 4-Way auto swing
- Ultra quiet operation
- Sleep mode
- Dry mode
- Auto restart
- Built-in low ambient standard, down to 14°F (Cooling Mode)
- 24-hour on/off timer
- Wall stand-off bracket

HEAT PUMPS

Single Zone CEILING CASSETTE

24000 and 36000 Btu. Indoor units are typically installed in a drop ceiling. The unit mounts flush to the ceiling for a clean look and efficient installation.

Features

- Inverter technology (variable speed compressor)
- Internal condensate pump with 27 1/2" lift* included
- Natural air flow
- 4-Way cooling
- Surge Cool/Heat
- Cooling/Heating/Fan mode
- Dry mode
- Sleep mode
- Built-in low ambient standard, down to 5°F (Cooling mode)
- Independent vane control
- 3 Fan speeds
- Evaporator frost control
- 24-hour on/off timer
- Auto restart
- Auto changeover
- Temperature display on remote
- Ultra-quiet turbo fan
- DiamonGold Advanced Corrosion Protection™
- Clean, modern look
- Flexible installation
- ENERGY STAR® qualified models
- Precise air distribution
- Capable of branch duct to adjacent closet or bathroom

* Lift from drain pan to the highest point 27 1/2"

Wired and wireless controllers

Wired controllers

Wall control thermostats have an infrared sensor that allows the settings to be changed by using the wireless remote control.

WIRED REMOTE

Concealed Ducted
D24YJ, D36YJ
MD12Y3JM, MD18Y3JM

OPTIONAL WIRED REMOTE

DWC1- Works with all Friedrich ductless models

PROGRAMMABLE SETTINGS

- Simple program (1 to 7 hour) ON/OFF
- ON/OFF at set time
- Sleep program
- 7 Day schedule
- Holiday schedule

WIRELESS REMOTE

Cassette and
All Wall-mounted Models

Wireless diagnostic tool for Friedrich Precision Inverter Ductless Split Systems

Monitor and diagnose wall-mounted ductless systems* for quick service responses

3 EASY STEPS:

1. Download Friedrich Diagnostic App from Google Play or App Store
2. Connect DWTST module to outdoor unit
3. Begin monitoring unit

Technicians can observe various data points, such as:

- Thermistor temps
- DC link voltage
- Fan RPM
- EEV pulse
- Error codes

DWTST

IMPORTANT

*Friedrich DWTST works only with Friedrich Precision Inverter™ wall-mounted ductless split systems. Applications are subject to change without notice. Not for use with other Friedrich models or other brands of products.

174 Multizone combinations

MIX AND MATCH

Wall-mounted, concealed duct and ceiling cassette models.

Enjoy the flexibility to mix and match systems to fit your application.

Control the temperature in individual rooms for optimum comfort and energy savings.

*Multizone units cannot heat and cool simultaneously.

DUCTLESS SPLIT SYSTEMS LIMITED WARRANTY

1. **A) FIVE YEAR WARRANTY - FRIEDRICH AIR CONDITIONING CO. (FRIEDRICH)** warrants to the original end-user of this product that should it prove defective due to improper workmanship and/or material under normal use for a period of five years from the date of installation, FRIEDRICH will repair or replace, at its option, any defective part without charge for the part. Replacement parts are warranted for the remainder of the original warranty period.

B) THIS WARRANTY DOES NOT INCLUDE LABOR or other cost incurred for servicing, repairing, removing, installing, shipping, or handling of either defective or replacement parts, or complete unit. Such cost may be covered by a separate warranty provided by the installing contractor.

C) SEVEN YEAR COMPRESSOR WARRANTY- During the seven year warranty period from the date of installation, should the compressor prove defective due to improper workmanship and/or material, **FRIEDRICH** will furnish a replacement compressor, at no charge, which is warranted for the remainder of the original warranty period. **LABOR IS NOT INCLUDED FOR INSTALLING REPLACEMENT COMPRESSOR.**

These warranties apply only while the unit remains at the original site and only to units installed inside the continental United States, Alaska, Hawaii, Puerto Rico, Mexico and Canada. The warranty applies only if the unit is installed and operated in accordance with the printed instructions and in compliance with applicable local installation and building codes and good trade practices. For international warranty information, contact the Friedrich Air Conditioning Company - International Division.

D) NOTICE: To obtain service and/or warranty parts replacement, you must notify an authorized FRIEDRICH Air Conditioning Co. distributor, dealer, or contractor of any defect within the applicable warranty period.

2. Any defective part to be replaced must be made available to **FRIEDRICH** in exchange for the replacement part. You must present proof of the original date of installation of the product in order to establish the effective date of the warranty. Otherwise, the effective date will be deemed to be the date of manufacture plus thirty days. The return of the owner registration card is not a condition of warranty coverage. However, please detach and return it so that we can contact you should a question of safety arise which could affect you.

3. **TO OBTAIN WARRANTY SERVICE**, please contact your authorized **FRIEDRICH** distributor, dealer, or the contractor who installed the equipment. If your dealer or contractor needs assistance, the authorized **FRIEDRICH** distributor is available for consultation, and **FRIEDRICH** supports the efforts of the distributor.

4. This limited warranty applies only to units remaining at the site of the original installation (except for mobile home installations) and only to units installed within the continental United States, Alaska, Hawaii, and Canada. This limited warranty applies only if the unit is installed and operated in accordance with FRIEDRICH instructions and in compliance with applicable local installation and building codes and good trade practices.

5. **THIS WARRANTY DOES NOT COVER** damages caused by: (a) accident, abuse, negligence, or misuse; (b) operating the product in a corrosive atmosphere containing chlorine, fluorine or any other damaging chemicals; (c) modification, alteration, poor service practices; (d) improper matching or application of the product or components; (e) failure to provide proper maintenance and service to the product according to manufacture's instructions; (f) installation or operating of the product in a manner contrary to the instructions of the manufacturer; (g) lightning, fluctuations in electrical power or other Acts of God. This **LIMITED WARRANTY** also excludes all cost of installation, disconnection or dismantling the product, parts used in connection with normal maintenance such as air filters or belts and owner-required maintenance. Consult the instructions enclosed with the product for information regarding recommended maintenance.

6. No one is authorized to change this **LIMITED WARRANTY** in any respect, or to create any other obligation or liability in connection with this product.

7. **YOUR ONLY REMEDIES ARE PROVIDED IN THIS LIMITED WARRANTY. ANY EXPRESS WARRANTY NOT PROVIDED HEREIN, AND ANY REMEDY WHICH, BUT FOR THIS PROVISION, MIGHT ARISE BY IMPLICATION OR OPERATION OF LAW, IS HEREBY EXCLUDED AND DISCLAIMED. THE IMPLIED WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR ANY PARTICULAR PURPOSE ARE EXPRESSLY LIMITED TO A TERM OF ONE YEAR FROM THE DATE OF ORIGINAL INSTALLATION. UNDER NO CIRCUMSTANCES SHALL FRIEDRICH BE LIABLE TO THE OWNER OR ANY OTHER PERSON FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH THIS PRODUCT, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT OR OTHERWISE.**

8. Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental, special or consequential damages, so the above limitations or exclusions may not apply to you.

9. This warranty gives you specific legal rights, and you may have other rights which vary from state to state and province to province.
