

**Distance sensors**
**OADR 20I6485/S14F**
**mechanical data**

width / diameter	20,3 mm
height / length	65 mm
depth	51 mm
type	rectangular
housing material	stainless steel 1.4404 (V4A)
front (optics)	PMMA
connection types	connector M12 8 pin

**ambient conditions**

ambient light immunity	< 10 kLux
operating temperature	0 ... +50 °C
protection class	IP 69K & proTect+

*proTect*<sup>+</sup>

- Sensor FDA compliant and Ecolab approved
- sensitivity adjustable: via Teach-in wire input
- For objects with a reflectivity < 7 % (OADR 20I6x85/S14F) the response time/ release time is increased automatically up to 2.8 ms.
