### Function Diagram

### Approvals and Markings

### Application

Control of fans

### Function

The fan starts approx. 1 min. after the light is switched on. When the light is switched off the fan will continue to run for the adjusted delay time.

### Notes

Unit and push button have to be connected to the same phase (see connection diagram) The output contact is not volt free.

### Maintenance

Inspection test and maintenance intervals are to be performed annually.
