## **RT** 5

# **Energetic reflection light scanner**

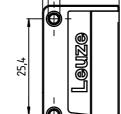

1 ... 1000 mm

- Energetic reflection light scanner
- Scanning range adjustment via teach-in
- Visible red light
- Active suppression of extraneous light A<sup>2</sup>LS
- Fast alignment through brightVision®
- Simple mounting with integrated M3 metal threaded sleeves
- Compact installation possible due to cable outlet at the rear or bottom
- Full control through green and yellow indicator LEDs
- Robust plastic housing acc. to IP 67 for industrial application

Scanning range limit: typical scanning range Scanning range: ensured scanning range

For UL applications: for use in class 2 circuits according to NEC only

Sum of the output currents for both outputs, 50 mA when ambient temperatures > 40 °C 2=polarity reversal protection, 3=short circuit protection for all outputs

These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/CYJV7 or PVVA/PVVA7)

#### Remarks

#### Operate in accordance with intended use!

This product is not a safety sensor and is not intended as personnel protection.

♦ The product may only be put into operation by competent persons. Solly use the product in accordance with the intended use.

 With the set scanning range, a tolerance of the scanning range limits is possible depending on the reflection properties of the material surface.

# Order guide

The sensors listed here are preferred types; current information at www.leuze.com.

		Designation	Part no.
With 4-pin M8 connector			
•	Pin 4: PNP light switching, pin 2: PNP dark switching	ET5.3/4P-M8	50122578
	Pin 4: NPN light switching, pin 2: NPN dark switching	ET5.3/2N-M8	50122581
With 200 mm cable and M12 connector			
	Pin 4: PNP light switching, pin 2: PNP dark switching	ET5.3/4P-200-M12	50122580
	Pin 4: NPN light switching, pin 2: NPN dark switching	ET5.3/2N-200-M12	50122583
With cable, cable length 2m			
	Pin 4: PNP light switching, pin 2: PNP dark switching	ET5.3/4P	50122579
	Pin 4: NPN light switching, pin 2: NPN dark switching	ET5.3/2N	50122582

## Part number code

-M8 M8 connector, 4-pin
N/A Cable, standard length 2m
-200-M8 200 mm cable with M8 connector
-200-M12 200 mm cable with M12 connector

## Teach-in method

ET 5... - 03 2015/09

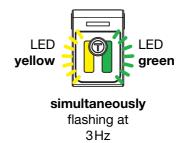

# **Energetic reflection light scanner**

## Operation via teach button

#### Teach in operating level 1

- Press teach button until both LEDs flash simultaneously.
- Release teach button.
- Ready.

#### Teach in operating level 2

- Press teach button until both LEDs flash alternatingly.
- Release teach button.
- Ready.

#### Adjusting the switching behavior of the switching output - light/dark switching

This function permits inversion of the sensors' switching logic.

 Press the teach button until only the green LED flashes. The yellow LED then shows the inverted switching logic:

**ON** = switching outputs light switching

(in the case of complementary sensors, Q1 (pin 4) light switching, Q2 (pin 2) dark switching), this means

output active when object is

detected.

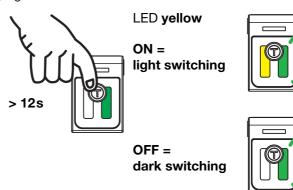

**OFF** = switching outputs dark switching

(in the case of complementary sensors, Q1 (pin 4) dark switching, Q2 (pin 2) light switching), this means output inactive when object is

detected.

• Release teach button.

Ready.
