

Position Transducers potentiometric up to 900 mm, IP55

Series LWH

Special features

- very long life - up to 100 million movements, depending on application
- outstanding linearity - up to $\pm 0.04\%$
- high resolution - 0.01 mm
- very high operating speed
- connection via plug and socket to DIN 43650 (hydraulic connector)
- protection class IP 55

LWH transducers are designed for the direct, absolute measurement of displacement or length in control regulation and measuring applications.

High resolution (0.01 mm) combined with a stroke length of up to 900 mm permits the accurate measurement of linear displacement.

Rack and pinions or similar devices are not required because the design of the transducers is such that they may be integrated directly into the mechanical system.

Tight tolerances on the extruded body, combined with a special surface treatment, permit high operating speeds and reduced wear. A pivoting front bearing overcomes "stickslip" operation even with some angular or out-of-parallel misalignment.

The Novotechnik design for connections to the resistance track ensures the highest degree of reliability, even under harsh working conditions.

The transducer has mounting grooves on all four housing surfaces. Thus the transducer can always be mounted in the preferred orientation, with the resistance element directed upwards, independent of the mounting surface.

Difficult to reach overhead mounting is simplified by pre-mounting the included clamps, then simply snap-mounting the transducer into place.

Description	
Housing	aluminium, anodized
Mounting	adjustable clamps, snap in on all sides
Actuator	stainless steel (1.4305), rotatable, external thread M6
Bearings	pivoting sleeve bearing
Resistance element	conductive plastic
Wiper assembly	precious metal multi-finger wiper, elastomer-damped
Electrical connections	4-pin plug socket to DIN 43650

Schematic

*) Technical data on request.
Other lengths on request

Included in delivery

1 plug connector GDM 3009,
(\varnothing 4,5 mm - 7 mm),
1 sealing gasket GDM 3-16,
2 fixing clamps with 4 screws

Optional accessories

Pivot head Z-60 with internal
thread M6x12, P/N 058100.
Process-controlled indicators
MAP... with display.

Signal conditioner MUW...
(integrated in plug connector)
with supply voltage 24 V and
voltage or current output
signals.

Important

All values specified in this data
sheet for linearity, lifetime and
temperature coefficient are
only valid for a sensor used as
a voltage divider with virtually
no load applied to the wiper
 $\leq 1 \mu\text{A}$).
