

# CE

## **Model Number**

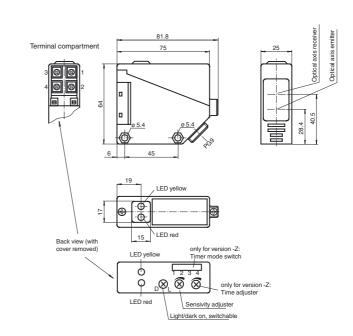

## RL39-55/32/35/40a/82a/116

Retroreflective sensor with terminal compartment

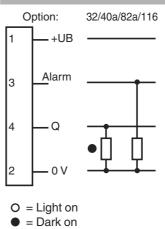

## **Features**

- Visible red light ٠
- Light/dark ON, switchable •
- Degree of protection IP67 •

# Dimensions

## **Electrical connection**

Release date: 2014-04-03 11:55 Date of issue: 2014-04-03 088813\_eng.xml

Technical data		
General specifications		
Effective detection range		0 20 m
Reflector distance		3 20 m
Threshold detection range		25 m
Reference target		H85 reflector
Light source		LED
Light type		modulated visible red light
Polarization filter		no
Ambient light limit		10000 Lux
Functional safety related param	eters	
MTTF <sub>d</sub>		800 a
Mission Time (T <sub>M</sub> )		20 a
Diagnostic Coverage (DC)		0 %
Indicators/operating means		
Function indicator		LED yellow: switching state LED red: pre-fault indication
Control elements		sensitivity adjustment
Control elements		Light/Dark switch
Electrical specifications		
Operating voltage	UB	10 30 V DC
Ripple		10 %
No-load supply current	I <sub>0</sub>	≤ 55 mA
Time delay before availability	t <sub>v</sub>	≤ 50 ms
Output		
Pre-fault indication output		1 PNP, active when falling short of the stability control
Switching type		light/dark on
Signal output		1 PNP output, short-circuit protected, reverse polarity protected, open collector
Switching voltage		max. 30 V DC
Switching current		max. 200 mA , resistive load
Voltage drop	Ud	≤3V
Switching frequency	f	≤ 300 Hz
Response time		≤ 1.5 ms
Standard conformity		
Standards		EN 60947-5-2
Ambient conditions		
Ambient temperature		-25 55 °C (-13 131 °F)
Storage temperature		-40 55 °C (-40 131 °F)
Mechanical specifications		
Degree of protection		IP67
Connection		terminal compartment PG9, $\leq$ 2.5 mm <sup>2</sup>
Material		
Housing		PBT
Optical face		PMMA
Mass		100 g
Compliance with standards and ves	l directi	-
Directive conformity		
EMC Directive 2004/108/EC		EN 60947-5-2
Approvals and certificates		
CCC approval		CCC approval / marking not required for products rated ${\leq}36~V$
Approvals		CE

#### **Curves/Diagrams**

#### Characteristic response curve

### Additional Information

#### **Conventional use:**

The reflex light beam switch contains the emitter and receiver in a single housing. The light from transmitter is beamed back from a reflector to the receiver. If an object interrupts the light beam the switching function is initiated.

#### Mounting instructions:

The sensor can be fastened over the through-holes directly or with the included mounting bracket.

The base surface must be flat to avoid distorting the housing during mounting. It is advisable to secure the bolts and screws with washers to prevent misalignment of the sensor.

#### Instructions for adjustment:

Connect the sensor to operating voltage, the LED green lights up constantly.

Mount suitable reflector opposite light beam switch and align roughly.

The exact adjustment takes by swivelling the sensor horizontally and vertically. With optimum light reception the yellow LED lights up constantly. In case of bad alignment, the red LED lights up.

#### **Object detection check:**

Move the object into the light beam. If the object is recorded, the yellow LED goes off. If it isn't going off, reduce the sensitivity with the potentiometer until it goes off. It should light up constantly again when the object is removed. The red LED lights up if reception deteriorates (e.g. soiled lenses or by maladjustment) and when falling short of the stability control.

#### lustration:

We recommend that you clean the optical interfaces and check the plug-in connections and screw connections at regular intervals.
