

Model Number

USB-0,8M-PVC ABG-SUBD9

Interface converter USB/RS 232

Features

- Interface adapter USB/RS 232
- Extension cable 0.8 m in scope of delivery

Function

Modern notebooks and PCs are often not equipped with a standard RS 232 serial interface. The interface converter USB-0,8M-PVC ABG-SUBD9 provides a RS 232 serial interface at a free USB port.

It can be connected to the USB port either directly or via the 800 mm USB cord, which is included in scope of delivery.

Our interface cables can be connected to the 9-pin Sub-D connector in the accustomed way.
