

- Flexible installation by means of alu profile- or mounting bracket system
- High mechanical stability
- Suitable for applications with wide temperatur variations

WCS2-CS55-M1

Technical data

General specifications

Length	0.1 ... 327 m
Radius of bend	≥ 500 mm

Ambient conditions

Operating temperature	-40 ... 100 °C (233 ... 373 K)
-----------------------	--------------------------------

Mechanical specifications

Material thickness	0.5 mm
Tension loading	≤ 4500 N
Material	stainless steel 1.4310
Thermal expansion coefficient	$1.6 \times 10^{-5} / K$
Mass	175 g / m

Dimensions
