Application

Technical data

Mechanical specifications

Protection degree	IP67
Note	End seal packaging unit 20-piece incl. 3 x UHU superglue End seal has to be glued.

Notes

Contents of Package

The set consists of

- 20 end seals for AS-Interface flat cable
- 3 small tubes of UHU instant adhesive (content: 1 g) in a practical storage box

Assembly Instructions

- Insert 1 droplet of adhesive into the end seal
- Slide end seal over the end of the AS-Interface flat cable
- Leave to dry (up to approx. 60 seconds)

Note

Adhesives made from cyanacrylate dry very quickly and are highly adhesive. They dry extremely quickly in combination with humidity (for example air humidity or moisture on skin). If used incorrectly or misused, they can lead to physical impairment. Please read the corresponding safety data sheet carefully.

Warning

Cyanacrylate. Danger! Bonds skin and eyes within seconds. Keep out of the reach of children. Causes irritation of the eyes, respiratory organs and skin. Do not inhale the vapor. In the case of eye contact, rinse with water immediately and thoroughly and consult doctor. Use only in well-aired areas.
