Switch Amplifier

KCD2-SOT-Ex2

Features Assembly · 2-channel isolated barrier 24 V DC supply (Power Rail) Front view Removable terminals • Dry contact or NAMUR inputs DØ blue · 2 passive transistor outputs · Reversible mode of operation LED green: • Line fault detection (LFD) Power supply · Housing width 12.5 mm f LED yellow/red: • Up to SIL2 acc. to IEC 61508 Status output/ Fault signal channel I **Function** LED yellow/red: 0 Status output/ Fault signal channel II This isolated barrier is used for intrinsic safety applications. The device transfers digital signals (NAMUR sensors or dry Switch 1 ... 4 contacts) from a hazardous area to a safe area. Each input controls a passive transistor output.

Via switches the mode of operation can be reversed and the line fault detection can be switched off.

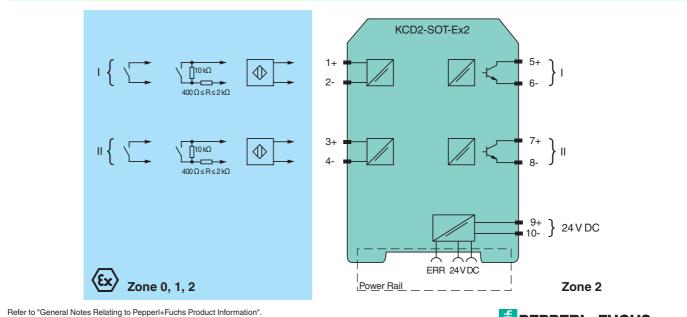

A fault is signalized by LEDs acc. to NAMUR NE44 and a separate collective error message output.

Operating status

Control circuit	Input signal
Initiator high impedance/contact opened	low input current
Initiator low impedance/contact closed	high input current
Lead breakage, lead short-circuit	Line fault

Factory settings: switch 1, 2, 3 and 4 in position I

Accessories

Power feed module KFD2-EB2

The power feed module is used to supply the devices with 24 V DC via the Power Rail. The fuse-protected power feed module can supply up to 150 individual devices depending on the power consumption of the devices. Collective error messages received from the Power Rail activate a galvanically-isolated mechanical contact.

Power Rail UPR-03

The Power Rail UPR-03 is a complete unit consisting of the electrical insert and an aluminium profile rail 35 mm x 15 mm. To make electrical contact, the devices are simply engaged.

Profile Rail K-DUCT with Power Rail

The profile rail K-DUCT is an aluminum profile rail with Power Rail insert and two integral cable ducts for system and field cables. Due to this assembly no additional cable guides are necessary.

Power Rail and Profile Rail must not be fed via the device terminals of the individual devices!
