with 3-pin, M12 x 1 plastic connector

Very high detection range

Efficient Line in a short M18 plastic

housing for standard applications

4 LEDs indicator for 360° visibility

Optimized potentiometer design for a

clear control button layout in the ap-

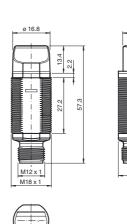

The GLV/GLK18 series sensors help improve the efficiency of machines and systems. The design of the M18 plastic housing, the connection technology, and sensor properties are highly standardized. Concentrating on the key sensor requirements has produced a robust and reliable product series for DC and AC/DC voltage systems without any over-

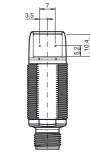

engineering. The mounting set included in the

scope of delivery and the optimized potentiometer design ensure fast assembly and easy
