

**Model Number**

**PHA250-F200A-R2**

Precision positioning on hole in the 70 mm x 70 mm housing

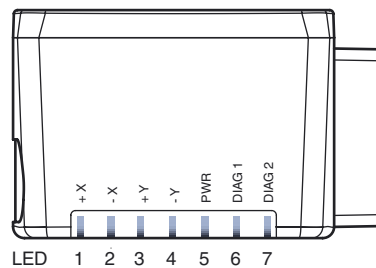

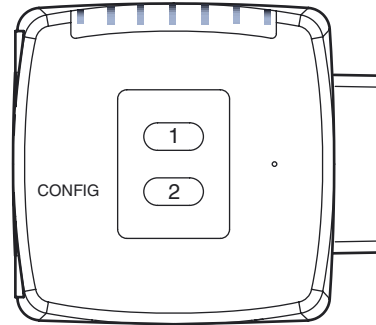

**Features**

- Large capture range
- High operating range
- Integrated contrast compensation
- Compact design
- Integrated illumination
- Detects the position of an index hole

**Function**

The sensor has been developed for the precision positioning of high-bay racking operating equipment. It detects circular holes in the racking structure and their positional deviation from the nominal position. The sensor operates in two dimensions.
