

## Features

- Glass fiber reinforced polyester (GRP) enclosures
- Suitable for operation in Zones 1, 2, 21 and 22
- Certified Ex de and Ex tb
- Up to 4 operators per control unit, base-mounted contact blocks
- Wide choice of operators, including
  - Pushbuttons
  - LED indicators
  - Illuminated pushbuttons
  - Emergency stop buttons
  - Pushbuttons with key release
  - Control switches
  - Potentiometers
  - Ammeters
- Customizable configuration of operators and cable gland types as per specification
- Wide range of labels and accessories available

## Assembly

## Function

The versatile control units of the LCP series are available as standard off-the-shelf control units or can be flexibly equipped with a great variety of operators, labels, cable glands and accessories.

The comprehensive range of control functions allow the configuration of each control unit to exactly meet any application requirements and ensure optimal space efficiency.

The enclosures are manufactured from glass fiber reinforced polyester.

Durable materials and components of high quality allow the control units to be used in ambient temperatures between -40 °C and +55 °C.

## Configuration Examples

**Technical Data****Electrical specifications**

Operating voltage	250 V AC max.
Operating current	16 A max.

**Mechanical Specification**

Cover fixing	M6 stainless steel socket cap head screws
Protection degree	IP66
Cable entry	cable glands as per specification, see also dimensions data table
Cable entry areas	face A and face B
Terminal capacity	2.5 mm <sup>2</sup>

**Material**

Enclosure	carbon loaded, anti static glass fiber reinforced polyester (GRP)
Finish	moulded, self-colour black
Seal	one piece solid silicone rubber
Weight	see dimensions data table
Grounding	2.5 mm <sup>2</sup> earth terminal

**Ambient conditions**

Ambient temperature	-40 ... 55 °C (-40 ... 131 °F) @ T4 -40 ... 40 °C (-40 ... 104 °F) @ T6 -50 °C (-58 °F) on request
---------------------	--

**Data for application in connection with Ex-areas**

EC-Type Examination Certificate	SIRA 13ATEX3059X
Group, category, type of protection, temperature class	Ⓔ II 2 GD Ex de IIC T6, T5, T4 Gb Ex tb IIIC T80 °C, T95 °C, T130 °C Db

**International approvals**

IECEx approval	IECEx SIR 13.0021
----------------	-------------------

**Conformity**

Protection degree	EN 60529
-------------------	----------

**General information**

Supplementary information	EC-Type Examination Certificate, Statement of Conformity, Declaration of Conformity, Attestation of Conformity and instructions have to be observed where applicable. For information see <a href="http://www.pepperl-fuchs.com">www.pepperl-fuchs.com</a> .

For further configurations please contact Pepperl+Fuchs.

## Dimensions

## Legend

- A – Maximum external dimension
- B – Maximum external dimension
- C – Maximum external dimension
- C1 – Maximum external dimension with operator
- G – Fixing holes center
- H – Fixing holes center
- J – Fixing holes diameter
- K – Maximum external dimension with mounting bracket
- [A] – Entry face
- [B] – Entry face

For details see dimensions data table

## Dimensions

Type	Dimensions [mm]					Fixation [mm]			Weight [kg]
	A	B	C	C1	K	G	H	Diam. J	
LCP1.*	110	110	101	148	125	110	78	7	0.9
LCP2.*	220	110	101	148	235	220	78	7	2
LCP3.*	220	110	101	148	235	220	78	7	2
LCP4.*	220	110	101	148	235	220	78	7	2

Weight shows empty enclosure; it will increase according to operators and installations.

Dimension C1 is maximum, it will differ according to operator elements.

Standard cable entries:

Face A: 1 x M20 polyamide stopping plug

Face B: 1 x M20 polyamide cable gland

For further entry configurations please contact Pepperl+Fuchs.

**Type LCP1 configuration: max. 1 function – operator types see overleaf**

Maximum configuration (1)

Large operator configuration (2a)

**Type LCP2 configuration: max. 2 functions – operator types see overleaf**

Maximum configuration (1)

Large operator configuration (2)

Windows and large labels (3)

**Type LCP3 configuration: max. 3 functions – operator types see overleaf**

Maximum configuration (1)

Large operator configuration (2a)

Windows and large labels (3)

**Type LCP4 configuration: max. 4 functions – operator types see overleaf**

Maximum configuration (1)

- (1) Small operators with 2 pole contact blocks  
Small operators include all pushbuttons, small switching actuators, LED indicators and potentiometers, see overleaf
- (2) Large switching actuators and all operators fitted with 4 pole contact blocks, protective lid or padlockable shroud  
2a) 4 pole contact blocks not possible
- (3) Viewing windows with ammeter in combination with operators, label holders depending on configuration

For further configurations please contact Pepperl+Fuchs.

Note: the use of label holders depends on operator configuration.
