

## DBS721, DBS729

Cerberus® PRO

### Sounder interbase, Sounder beacon interbase

For the automatic addressable detector bus C-NET

- 
- **Sounder interbase DBS721 and sounder beacon interbase DBS729**
    - 11 selectable tones, 2 programmable activation levels
    - Sound intensity up to 89 dBA, adjustable
    - Compatible to the FD720 addressable point detectors
    - Power supply and communication via C-NET
  - **Sounder beacon interbase DBS729 only**
    - Red LED's: luminous intensity adjustable – 3 programmable levels (2 flashing modes)

## Characteristics

---

- **Environmental**

- ecologically processing
- recyclable materials
- electronic und synthetic material simply separable

- **Characteristics DBS721 / DBS729**

- sound level and sounds adjustable, sounds are synchronized with all alarm devices
- no auxiliary power supply required; power is supplied via C-NET
- very low operating current
- monitoring of device status
- space for auxiliary terminals
- protected electronics, high-quality components
- integrated short-circuit isolator

- **Characteristics DBS729 only**

- Red LED's: luminous intensity and flashing mode adjustable

### DBS721 Sounder interbase

---

#### Function

- The sounder interbase serves for acoustic alarming in the addressed FS720 fire detection system.
- The sounder interbase has its own address and can be configured freely with no dependence from its associated detector.
- compatible with all point detectors of the series Cerberus PRO FD720 (detectors see product data sheet A6V10202198)

#### Application

- hotel rooms
- hospital rooms
- nursing homes, living rooms and lounges

### DBS729 Sounder beacon interbase

---

#### Function

- The sounder beacon interbase has the same functionality as DBS721. Additionally red LED's are flashing in case of alarm. The configuration of the interbase DBS729 allows in addition an alarming in the addressed FS720 fire system

#### Application

- hotel rooms
- hospital rooms
- nursing homes, living rooms and lounges

## Accessories

---

### **Designation plate FDBZ291**

– to identify the location address

### **Micro terminal DBZ1190-AA**

– for conductors of max. 0.5 mm<sup>2</sup>

### **Connection terminal DBZ1190-AB**

for conductors of max. 2.5 mm<sup>2</sup>

**Blanking plate BP720:** if no detector is inserted the blanking plate provides a smooth protection.

### **Detector locking device LP720**

– to protect the detector against theft

Details see detector product data sheet A6V10202198

## Installation DBS721 / DBS729

---

- The interbase DBS721 or DBS729 and the detector compose a single unit, which already has a base (DB720 or DB721) and is mounted on ceilings.
- for recess supply wiring
- for surface supply wiring, remove the corresponding breakouts in the base for cable diameter up to max. Ø8 mm

only use with recess supply wiring

DBS721 or DBS729

For all point detectors designed for Cerberus PRO and fitting to the DB720 and DB721 base (i.e. OP720, OH720 HI720, HI722...:)

## Dimensions

---

DBS721 / DBS729

## Technical data

	DBS721	DBS729
Operating voltage	DC 12... 33 V	DC 12... 33 V
Operating current (quiescent)	250 µA	250 µA
– Sound activated	3.5 mA	3.5 mA
– Light activated	–	1.5/4.0/6.5 mA (low/mid/high)
– Light and sound activated	–	5/7.5/10.5 mA (low/mid/high)
Number of sounds	11 2 activation levels 3 sound intensities (1 alarm, 2 sounds for test)	11 2 activation levels 3 sound intensities (1 alarm, 2 sounds for test)
Sound level (alarm level)	82... 89 dBA	82... 89 dBA
Luminous intensity	–	0.7 ... 3.8 cd
Number of luminous intensity levels	–	3 levels and 2 flashing modes (not available for all panels and SW versions)
Operating temperature	-25... +55 °C	-25... +55 °C
Storage temperature	-30... +75 °C	-30... +75 °C
Humidity	≤95 % rel.	≤95 % rel.
Communication protocol	C-NET	C-NET
Connection terminals	0.2... 1.6 mm <sup>2</sup>	0.2... 1.6 mm <sup>2</sup>
Color	White ~RAL9010 / translucent	White ~RAL9010 / translucent
Protection category EN60529 / IEC529 with	IP21	IP21
– Base DB720 or DB721	–	–
– Detector base sealing RS720	IP21	IP21
Standards	EN 54-3 Type A, EN 54-17	EN 54-3 Type S, EN 54-17
– Approval VdS	G211083	G211084
System compatibility C-NET		FC720
QS standards	Siemens Standard SN 36350	

### DBS721

 0786
Siemens Schweiz AG, CH-6301 Zug Date: see manufacturing date on the product 0786-CPD-21100
EN54-3, EN54-17 Sounder interbase, Safety in case of fire DBS721 Technical data see Doc. A6V10320090

### DBS729

 0786
Siemens Schweiz AG, CH-6301 Zug Date: see manufacturing date on the product 0786-CPD-21101
